Beyond compliance – towards excellence

Supporting you to make the Care Act a reality

About the Care Act

The Care Act 2014 is the most significant change in social care law for 60 years, placing new duties on local authorities and new rights for local people.

We understand the challenges you face in implementing the Care Act and can help you to meet its requirements as effectively as possible.

The Social Care Institute for Excellence (SCIE) and PPL are committed to improving the lives of people and their communities. We offer specialist, practical support at strategic and operational level to help you deliver real change.

Make the Care Act a reality

We work with local authorities to implement the Care Act in a cost-effective way by:

- putting in place new ways of working that are compliant and flexible enough to respond to changing needs
- ensuring that the workforce has the skills and capabilities to respond to changes
- implementing assessment systems that are fit for purpose to meet changing demand
- developing the right culture and behaviours to support the Care Act.

Do more and better with less

Building on experience and practical tools from our Care Act implementation work with leading local authorities, we can provide focused and personalised support to address challenges within a limited budget. Talk to us about how these reforms fit with corporate aims and local priorities.

We can support you to:

- build a shared vision with staff and partners of what the Care Act means in your local area and how you can maximise the impact
- introduce practical approaches and tools to support Care Act implementation
- engage with partners, people who use services and carers: develop co-productive approaches to re-designing services and securing local support for changes.

About SCIE

SCIE is an independent charity that improves the lives of people who use care services by sharing knowledge about what works. We provide advice and guidance, videos, training, and consultancy to help you understand and implement the Care Act.

About PPL

PPL is an independent consultancy working on practical projects promoting health, wellbeing and economic success across the UK. We support policy and strategy development, service re-design and implementation in a way which delivers tangible and lasting impact.
