

MCA Training to GP practices

Rotherham CCG Safeguarding Team and Amanda Coyne MCA/DoLS Coordinator RMBC

Kirsty.leahy@rothrerhamccg.nhs.uk

Project method

RMBC MCA/DoLS coordinator on behalf of RCCG provided in-house GP training to all 36 practices. The training was offered out to all practice nurses, health care assistances and reception staff. The sessions covered the main principles of the act and the update from the House of Lords Select Committee along with a number of real case studies. The sessions were inactive with all staff having plenty of opportunity to participate.

Project results/evaluation

Very well received. Feedback has been positive as staff felt comfortable in their surroundings and at ease to speak freely amongst their own staff. All practices now feel better equipped to “embed MCA”.
