Questions spark discussion

Today

- How do we we approach co-production today?
- Exploring identify and intersectionality
- Thinking differently about EDI and coproduction
- Personal action plan- what can you start, stop, continue doing to increase diversity of voices within co-production?

Co-Production today is often.....

- Loosely defined- all rungs called “co-production”
- Compartmentalised single issue focus
- Working with a defined group of people
- Diversity seen as covering Protected Characteristics
- Limited testing of outputs with people “beyond the room”.
