

The environment

8 Learning disabilities and dementia

Our learning material is designed to help you to work towards Qualification and Credit Framework (QCF) units and will support you to work towards the Diploma in Health and Social Care at level 2 or 3. This document provides you with information about how the feature links to specific QCF units, and offers an activity which you could use to help demonstrate your learning. A general explanation about the QCF can be found at the end.

Linking to Health and Social Care Diplomas at Level 2 and 3

The learning in the feature <http://www.scie.org.uk/publications/dementia/dementia-friendly-environments/environment/learning-disabilities.asp> will help you to understand and prepare for assessment in the following QCF units:

Health and Social Care Diploma Level 2	Health and Social Care Diploma Level 3
SCH 021, HSC 026, Dem 201, LD 201 LD 206 C,	SCH 031, HSC 036, Dem 301, LD 201, LD 206 C

Activity to support your learning

The activity for <http://www.scie.org.uk/publications/dementia/dementia-friendly-environments/environment/learning-disabilities.asp> can be used to provide evidence for the QCF unit LD 206C 3.1. To do this, copy the activity into a Word document, then complete and keep a record of your answers in full there.

[Amend the case study:]

John needs his support worker to remind him to wash his hands after he has been to the toilet. Staff go with him as he sometimes gets distracted and requires prompting. John can identify the soap and wash/dry his hands. But then a change occurs. When John goes to wash his hands, he can't locate the soap or his towel, and becomes impatient and irritable.

Insert the question below as question 3, and make current question 3 into question 4:

3. Apart from dementia, can you think of other things that might be troubling John and causing him to have problems with poor personal

General Explanation

The Qualification and Credit Framework is a flexible, 'mix and match' approach to gaining qualifications.

Every unit and qualification has both a credit value and a level. The credit value shows approximately how much time it takes to complete. The level shows how difficult the unit or qualification is. In adult social care there are vocational qualifications/units from level 1 through to level 7.

There are three sizes of qualification:

- Award (1-12 credits)
- Certificate (13-36 credits)
- Diploma (above 36 credits)

In order to obtain a Level 2 Diploma in Health and Social Care you will need 46 credits for a Level 3 Diploma in Health and Social Care you will need 58 credits.

At both level 2 and level 3 there are mandatory units and optional units; you can also choose to follow specific pathways:

- Generic qualification
- Dementia pathway
- Learning Disability Pathway

When you have selected a pathway there are specific units that you need to do. More information about QCF awards can be found at: <http://www.skillsforcare.org.uk>
