

Ethical Collaboration statement

The Social Care Institute for Excellence is an independent charity that is working towards better social care.

Our vision is a society where care and support maximise people's choices, removes inequality, and enables people to live fulfilling, safe and healthy lives.

Our mission is to research, evidence, share and support the implementation of best practice. We use this evidence and experience to shape policy and outcomes, and to raise awareness of the importance of social care and social work for creating a fair and equal society. Everything we do is informed by people with experience of care and support.

With this in mind, SCIE seeks to work with a range of organisations to support all aspects of its work and, where appropriate, to generate income. This may include sponsorship agreements, joint ventures, commissions, consultancy, and partnership working. All income-generating activities are conducted in direct pursuit of our vision and mission statements.

Income generation is essential to supplement the money we raise from our own assets and to allow us to continue with our range of activities.

This statement should be read in conjunction with our Donation Acceptance Policy which outlines in detail what our guiding principles are.

This statement should also be read in conjunction with our terms and conditions including the use of our logo which cannot be used on a commercial basis without our permission. Its use is not an endorsement of an organisation and/or its products.

SCIE would like to acknowledge that this policy draws on both the Healthcare Quality Improvement Partnership and The Kings Fund's ethical collaboration policies.
