Help us improve life with cancer in Tower Hamlets

We are looking for people affected by cancer to get involved in the Tower Hamlets Living with Cancer Programme

We want to improve support for local people who have cancer and their families, so that they can live well with a good quality of life. This includes improving access to practical, financial, emotional, spiritual and rehabilitation services for people living with cancer during treatment, after treatment and at the end of life.

How can you get involved?

There are lots of different ways you could choose to be involved:

- join a group of people with cancer, family members and NHS and social care professionals to help improve support for local people and design future services
- become a member of our programme board, which meets every two months
- help test new services to make sure they work for people with cancer
- attend focus groups and workshops
- join our network and stay connected by email
- follow us on social media.
