

Strengthening Families, Protecting Children National Online Learning Event

14TH & 15TH JUNE 2022

Register to join us for the Strengthening Families, Protecting Children 2022 National Online Learning Event

Strengthening Families, Protecting Children (SFPC) is a five-year Department for Education programme supporting local authorities to improve their work with families and safely reduce the number of children entering care by implementing successful sector-designed whole-system change models.

This two day national online learning event, sponsored by the Department for Education, is a key opportunity to learn more about the three SFPC models and their effectiveness. You will have a chance to learn from the Innovator authorities behind each of the models, as well as from some of the authorities who are successfully adopting them and representatives from the Department for Education.

There will also be opportunities to hear and discuss insights about effective support for families from across the SFPC programme.

The event will be of interest to any authority interested in adopting or learning more about any of the models, as well as to those working in relevant policy areas.

Please register your interest [here](#) to secure your free place and receive updates.

There will be a number of workshops and panel discussions over the two days. A full agenda, and joining details for individual sessions, will be released over the coming months.

Please pass this invitation on to others who might be interested.

THE THREE SFPC MODELS ARE:

Family Safeguarding

A whole family, strengths-based approach to child protection.

Family Valued

An approach that seeks to promote relational practice underpinned by the principle of working with children and families, rather than doing things to or for them.

No Wrong Door

An integrated service and approach to supporting adolescents in or on the edge of care.
